Work Area Specific Training

1. Information on hazardous chemicals known to be present in the employee’s work area and to which the employee may be exposed, including:
   a) Location within the work area. b) Specific hazards, including acute and chronic effects.
   c) Safe handling and disposal procedures. d) Procedures to follow in the event of an accident or spill.
2. Work area location of SDSs, or procedures for obtaining SDSs.
3. Location of emergency safety equipment (e.g. emergency eyewash station, emergency shower, fire extinguisher) and instruction on activation procedures and use.
4. Location and use of the appropriate personal protective equipment the employee will need for working with hazardous chemicals.
5. Location of the first aid kit and first aid treatments to be used in the event of an accident.
6. Location of the chemical spill kit and instructions on spill cleanup procedures.
7. Other work area specific training (please list):

I understand that my department/unit will provide access to chemical information and will provide additional/continuous training as appropriate regarding hazardous chemicals to which I may be exposed during my employment activities.

Is this individual:
- a TAMU Employee ______
- a TAMU Student
  - Grad ______
  - Undergrad ______
- an Approved Visiting Scholar ______

Is this training for teaching?
Yes: _____ No: _____
If yes, Course #: ______

Is this training for research?
Yes: _____ No: _____
