Work Area Specific Training

1. Information on hazardous chemicals known to be present in the employee’s work area and to which the employee may be exposed, including:
   a) Location within the work area.
   b) Specific hazards, including acute and chronic effects.
   c) Safe handling and disposal procedures.
   d) Procedures to follow in the event of an accident or spill.
2. Work area location of SDSs, or procedures for obtaining SDSs.
3. Location of emergency safety equipment (e.g. emergency eyewash station, emergency shower, fire extinguisher) and instruction on activation procedures and use.
4. Location and use of the appropriate personal protective equipment the employee will need for working with hazardous chemicals.
5. Location of the first aid kit and first aid treatments to be used in the event of an accident.
6. Location of the chemical spill kit and instructions on spill cleanup procedures.
7. Other work area specific training (please list)
