BIOLOGY MINOR REQUIREMENTS (Current)
(16-18 Credits)

A minor in Biology should represent coursework taken in the discipline beyond courses that might be used to satisfy core curriculum science requirements (8 credits). Therefore, though BIOL111 & BIOL112 are prerequisites to all of the listed courses, they are not considered part of the minor program. The course work listed represents various sub-disciplines within the field of Biology and would give the student an overall knowledge base fitting a Minor in Biology.

Students must have a C average in all courses taken for a minor in Biology. BIOL 491 and BIOL 485 credits will not be allowed to count for the minor, nor used in the BIOL GPA calculation.
